

Certificate #21030

Certificate of Compliance

Presented to

Continental Disc[®]
Corporation

Performance testing was evaluated for the
Continental Disc Rupture Disc Model IntegrX-HPX[®]
in sizes 1", 1½", 2", 3", and 4" based on
ASME BPE-2019 Appendix M Spray Device Coverage Testing.

Overall, coverage test results were acceptable. To the limit of visual detection,
Riboflavin solution was removed from all targeted areas of the rupture discs.

*The testing associated with the spray device coverage study is summarized
in the Project #2104 Report issued by The BioProcess Institute.*

A handwritten signature in blue ink, appearing to read 'J. D. Vogel'.
